#### FIRE FIGHTING INFORMATION

Department of Transportation (DOT) Emergency Response Guide Number: 26

<u>Unusual Hazards:</u> Flammable liquid. Toxic gases (such as carbon monoxide and carbon dioxide) may be released in a fire. Vapors may travel long distances to ignition source and flash back. Dangerous fire hazard when exposed to heat, flame or oxidizers. Moderate explosion hazard when exposed to heat or flame.

<u>Special Fire Fighting Procedures:</u> Use water to keep fire exposed containers cool to disperse vapors, to flush spills away from exposures and to dilute spills to non-flammable mixtures.

Extinguishing Agents: Dry chemical, water spray or alcohol resistant foam.

<u>Personal Protective Equipment:</u> Self contained breathing apparatus and protective clothing should be worn in fighting fires involving chemicals.
