Removal of unpleasant odors is simplified with this product. This concentrated, water soluble deodorant does not merely cover up odors; it chemically neutralizes the odor causing molecules without leaving an over powering scent. It contains the fragrance that your nose detects, two re-odorizing agents and a sophisticated surfactant-emulisfier system. The unique formula continues to work to fight odors long after initial fragrance has dissipated.

Properly diluted, it can be sprayed directly on surfaces or fabrics without staining or leaving a residue. The versatile formulation allows its use in fire damaged facilities and eliminates odors due to smoke, vomit, urine, fecal matter, pets and cooking. This versatile product can be added to cleaning solutions to help eliminate odors as you clean or use alone diluted 1:20 for use as an all purpose cleaner.
